

Mahir Mohammed Labib

Junior Frontend Developer

Dhanmondi, Dhaka, Bangladesh • mahi.labib5@gmail.com • <https://github.com/Labib591>
Junior Frontend Developer passionate about building scalable web applications.

PROJECTS

Carhelp – Full Stack Car Rental Platform

- Live: <https://carhelp-labib.web.app/>
- Developed a responsive full-stack car rental app enabling users to add, search, book, and manage cars with real-time availability updates.
- Built an intuitive UI with **React**, **Tailwind CSS**, and Framer Motion; integrated Lottie animations for enhanced UX.
- Implemented Firebase Authentication and **JWT** for secure login and private routes; backend developed with **Express.js** and **MongoDB**.
- Added dynamic features like booking modification and car-based booking statistics with Recharts; deployed on **Vercel** and **Firebase**.

TASKBASE – Full Stack Task Marketplace Webapp

- Live: <https://taskbase-c16cd.web.app/>
- Built a productivity management web app to help users post and complete tasks in real time.
- Developed responsive UI with **React** and **Tailwind CSS**.
- Implemented authentication using **Firebase**; backend built with **Express.js** and **MongoDB**, deployed via **Vercel**.
